

**Cask Ale Range  
2026**

Cask ale isn't just another beer. It's about tradition, craftsmanship, and the stories behind every pint. Brewing cask ale the right way connects us to past generations of brewers and the communities that have grown up around the local pub.

To me, the pub is a social hub, a meeting place, a place to relax and share experiences.

A great pint of cask ale is part of that experience. It's slow, natural, and alive, qualities you can't rush or replicate.

At Hook Norton, we strive to brew, deliver, and care for every last pint, offering consistent classics and a brewers choice range perfectly matched to the ever changing seasons. Every pint that leaves our brewery reflects our commitment to quality.

Cask ale is part of our heritage that needs protecting. It's special. It's about flavour, character, and community all in one glass. That's what makes it truly British.

Welcome to Hooky Country.
